Forza Instructions
1. Press the Learn 1 button for 1 second. The "learn_led" light will illuminate.

2. Press and hold the button on the new remote until the "learn_led" flashes and/or goes out. The transmitter's code has been stored once this light goes out.

3. Stand clear of the door and test the remote

Please note that you can only code remotes to an individual garage door. If this remote is for a main door in an apartment block you will need a technician to code, as you will wipe all codes from other remotes.

WARNING!
This product may contain a coin/button cell battery. Keep product and batteries away from children. Battery can cause severe or fatal injuries in 2 hours or less if swallowed or placed inside any part of the body. Seek immediate medical attention if it is suspected that a coin/button battery has been swallowed or placed inside of any part of the body.
