

1. Remove the face plate of the motor to locate the radio set button. The radio set button is generally yellow, but the colour may vary depending on your motor model.
2. Press the radio set button on your motor once and release. A light will illuminate on your motor.
3. Press and hold the button on the new remote which you wish to operate the motor until the light on the motor goes out.
4. Your remote is now programmed. Please push the button on the remote to test.

WARNING!

This product may contain a coin/button cell battery. Keep product and batteries away from children. Battery can cause severe or fatal injuries in 2 hours or less if swallowed or placed inside any part of the body. Seek immediate medical attention if it is suspected that a coin/button battery has been swallowed or placed inside of any part of the body.
