# LIFE Remote Instructions

Programming a remote via the motor

1. Remove the cover of your motor to access the control panel (pictured below)
2. Press the Radio icon button on your motor located in the top left and press this button once and immediately let go (shown in the diagram below)
3. Hold down the button on the new remote that you would like to program to operate the motor until the top 5 led lights on the motor control panel flash then let go of the remote
4. Wait 30 seconds and test the new remote
5. Securely close the motor cover
