ULTRALOQ

U-Bolt

Bluetooth Enabled Keypad Smart Deadbolt

The Revolution On Your Front Door

What is Ultraloq U-Bolt?

Ultaloq U-Bolt is a secure and affordable smart deadbolt that offers keyless entry via your Bluetooth enabled smartphone. You can share Ekeys to your friends and guests for scheduled access. The Bridge upgrade allows you to control the access to your door while you're away from your home and monitor all activity remotely.

How Does Ultraloq Work For You?

Home
Ideal for all entry doors including front door, back door and side door where security matters.

For Everyone
Works for everyone in your family. With or without smartphone. Codes are perfect for children and elderly who might not have a smartphone.

Airbnb Host
With Ultraloq U-Bolt and Bridge, you can share a temporary access to your guest for a specific time period without physically being there.

Business
The right of access into each room can be controlled and monitored. No more replacing locks or exchanging keys when employees quit. Just take few seconds to delete those users in U-tec App.

Bluetooth Smart Connectivity
Your smartphone is now your key. Just unlock your door using the U-tec App on your smartphone

Share Temporary Codes and Ekey
Simply create a temporary code and Ekey for your guests in U-tec App

Auto Lock
Relock automatically to for added security and convenience

Easy Setup and DIY Installation
No wiring required. No drilling for American standard doors.

Long Battery Life
4 AA batteries. Up to 8,000 times access. Low battery alarm

Auto Unlock
Unlock the door for you when you arrive at your door with your smartphone in your pocket

Anti-peep Numeric Keypad
User defined 4-8 digit codes. Anti-peep password with backlight.

### Magic Shake
Just shake your phone to unlock your door

Mechanical Key
Backup mechanical key for emergency override

Solid and Resistant
Durable Zinc alloy casing. Weatherproof exterior assembly

More Features

Remote Access

With Bridge, you can unlock or share temporary Ekey and code to your guests remotely.

Advanced Dual Data Encryption

Ultraloq U-Bolt uses 128-bit AES data encryption and Dynamic Key as a second layer of protection.

Three Locking Status

Auto relock, privacy lockout and free passage.
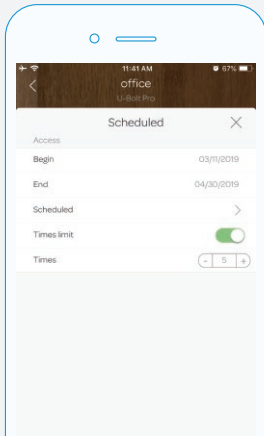

Tri-colorLED Indicator

Shows you authorised or denied access, Bluetooth connectivity status, battery and locking status
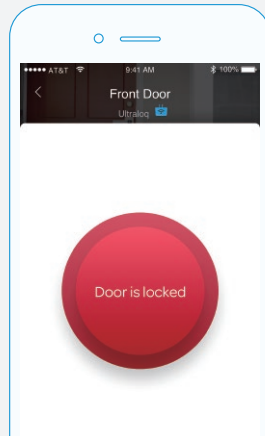

Less is More

Ultraloq U-Bolt was thoughtfully designed with style and functionality in mind.
