### Product Returns For “Warranty” Determination

Remote Pro® offer a 12-month warranty on all products used for private household use from the date of purchase. The use of products for commercial purposes qualifies the purchaser to a 3-month warranty period. Remote Pro will test the product according to the description of the problem listed above. After our evaluation, the return will be processed generally on the same day it was received. Please allow ample time for the returned item to be received as shipping can generally take up to 14 business days. In the event that the items are deemed fully functional, and the order was sent with free shipping, Remote Pro reserves the right to withhold a restocking fee of 20% of the purchase price or may otherwise return the items to the customer at their request in which the shipping costs will be required to be paid in full. Items purchased with shipping paid by the customer will have the full amount of the product returned only. If an item is deemed faulty, we can either process a full refund or have a functional product shipped back to the customer. Please ensure this form is accompanied with the returned items as failure to do so will risk the return being not identifiable and remain unprocessed.
